**E**very wedding needs great music. It can be the difference between a decent wedding and an “*Oh my goodness I haven’t danced like that in AGES*” wedding.

**E**uphonica is a team of entertainment experts. When we work with a wedding client or venue, we put the time in up front to understand each unique vision. So that by the big day, we've got everything covered.

**O**ur attention to detail, friendly approach, and unrivalled artist roster is why we are recommended by many of the finest venues in London, including the V&A, Natural History Museum, Somerset House, and One Belgravia. We have curated wedding entertainment for Oscar winning directors, for destination weddings in Tuscany, and for more garden marquees than we can remember.
